recommendations for
rheumatology nursing
management of chronic
inflammatory arthritis
cia from European League against Rheumatism (EULAR) states that nurses should take part in the monitoring of patients' disease and therapy in order to achieve cost savings. The aim of the study was to compare the costs of rheumatology care between a nurse-led rheumatology clinic (NLC) based on person-centered care in nurse-led outpatient.
abstract aim to describe and understand patients experiences as a means to conceptualize and evaluate outpatient person centered care pcc in nurse led rheumatoid arthritis ra clinics

methods persons with ra were interviewed about how they experienced their nurse led outpatient care and about the
meaning of living with persistent ra'
