Distinguished science writer turns detective as he uncovers the fascinating story of the invention of the pass it's a fabulous tale of Chinese lodestones directing the building of palaces and ancient mariners following the flights of birds to reach their destinations — the riddle of the pass the invention that changed the world.

June 5th, 2020 — Praise for the Riddle of the Pass An Uncommonly Good Book About An Invention That There's Just No Getting Around It Changed The World Jonathan Yardley The Washington Post A Pulsively Readable Investigation As Attracting As The Magnetic North

The history of the pass
June 6th, 2020 — The pass was invented more than 2000 years ago the first passes were made of lodestone a naturally magnetized stone of iron in Han dynasty China 20 BC 20 AD the pass was later used for navigation during the Chinese Song dynasty 960-1279 AD as described by Shen Kuo later passes were made of iron needles magnetized by striking them with a lodestone.

The riddle of the pass the invention that changed the world
May 24th, 2020 — The riddle of the pass the invention that changed the world was an interesting quick read on the early days of pass navigation though it did leave a bit to be desired I picked it up after reading Longitude the true story of a lone genius who solved the greatest scientific problem of his time which is excellent if you haven't read it and was let down.

December 10th, 2017 - in the southern coast of Italy lies the little village of Amalfi apart from its picturesque setting and the view it offers of the Tyrrhenian Sea, Amalfi’s principal claim to fame is symbolized by a tall bronze statue of its most famous son, Flavio Gioia, reverently honored as the inventor of the magnetic pass.

The Riddle of the Pass: The Invention That Changed The May 5th, 2020 - Fortunately, the well-known science writer Amir Aczel, author of Fermat’s Last Theorem, helps us better understand the genesis and significance of this invention with his latest book, The Riddle of the Pass, regarded by many as an invention as technologically significant as that of the wheel. The magnetic pass was one of the first mechanical measuring devices ever invented as well as the first instrument with a pointer allowing a person to visualize a measurement or a direction.
